### The Premises:

We met at a stylish boutique hotel in Shoreditch, which was her suggestion after I asked her opinion on where I should book a hotel in East London. So she performed the role of concierge as well as companion on this occasion. It's often the case that providers do that sort of thing in the states - I travel a lot so it's helpful when an escort knows the right places to see and stay in a certain location. The hotel she recommended was perfect, with a rooftop bar and heaters to enjoy the view of London while we had a drink.

### The Lady:

Alex looked very stylish when she arrived - I had asked her to dress down for discretion and she still looked a million dollars (i suspect it's impossible for her not to) in tight black jeans, boots and a great coat which I was very keen for her to unbutton (har har!)

We had an extremely sexy chat in the bar about what we were about to get up to in the bedroom - talk about foreplay! She had a very clear idea of what she likes which encouraged me to be open about what I wanted, too.

### The Story:

We headed to the room after about an hour to have some private time. There's not really any point outlining how it went between us, as I get the sense that, as with the very best ladies, each experience is different because she's really putting something of herself into it, being authentic every time. I will say that she is obviously passionate about sex - not just having it, but thinking about it, talking about it, understanding it on a deep level. She certainly could teach me a lot if I was able to see her more, but sadly the Atlantic divides us. I will definitely seek out her company again the next time I'm in town. Amazing woman.
