### The Premises:

### The Lady:

I spotted Lux across the foyer of my hotel and might have let slip a 'fuck me' as I realised this was my date. Tight red skirt hugging her plump behind, a sheer black blouse & heels...I was thoroughly unprepared!

### The Story:

We headed up to my room and I already felt at ease by the time we opened the bubbly, she's the kind of girl that feels like catching up with a long lost friend. Super easy to talk to but I must admit I was a little distracted! Maybe I was staring or maybe she's a psychic but mid sentence and never breaking eye contact she slowly started to unbutton her blouse and reveal those gorgeous milky whites. By this point I was barely forming sentences but she chatted on unperturbed until she was sat in front of me in a gorgeous black bra and knicker set with garter and stockings. Now I'm not one to kiss and tell but let me just say the girl knows what she's doing and boy does she mean business! We finished up and collapsed into bed...now I could truly appreciate the quality of her conversation! Would recommend 100% (unless you have a heart condition) in which case, leave her to me ;)
