The Premises:

Well documented already.

The Lady:

Very young 19/20 East European. Very attractive but English isn't her strong point.

The Story:

Went on a true punt no idea who was working today. Introduced to Brook and Alex. Both looked very sexy sadly I picked the wrong punt.

As I said earlier Carmen is late teens early twenties (sorry I'm rubbish at this). Thought my luck was in, very slim sexy body huge brown eyes and long dark hair, appeared quite demure and quiet in the reception. Sadly in the room it was a different matter! She hardly spoke english the odd phrase so communication was limited somewhat! Skipped the massage and well I can only describe as then being attacked! I still have the bruised to show. I think she was trying to be affectionate (kept repeating I love you) but she was just too full on aggressive. If this is how they have sex is Eastern Europe no wonder the men are all built like brick shit houses they need to be! Left as soon as I could get dressed. If Carmen would just turn it down a few megawatts and be a bit more sensual and slow it all down a LOT she'd be brilliant. Sadly I left feeling bruised, battered and disappointed.

The insult to injury was some bastard didn't lift the roller shutter door on the exit high enough and I gave myself concussion on the way out such was my hurry to leave. Least I can laugh now but hell that was some experience and one I don't plan to repeat.
