The Story:

I booked Casey for an hour. The hour actually starts from when she phoned me to say she was outside my house door. Started of with full on kissing and cuddling. Then gave a covered blow job. Fucked her with her being on top and then more full on kissing and cuddling. Looks wise she is not all that at all but made it up on her full on kissing. She is a very good kisser and I just couldn't stop kissing her. There was about half an hour to go and she goes like I'm going to start putting my clothes on and I was like what the hell. Forgot to get a kiss of her before she left. Defo would not see Casey again.
