The Lady:

A very lovely and fresh looking girl wearing only a hint of make-up. She is tall and very smart wearing a nice dress that showed her figure off very well ! I would place her in her early 30's with a perfect English complexion. She is very well spoken and has clearly gone to a good school.

The Story:

She came up to my room and I offered her some champagne then sorted out her fee. She asked if she could use my shower as she had been stuck in traffic for a long time.

After coming out of the shower she dropped the towel to reveal the most amazing body I have ever seen! A very nice shape and very well put together, large firm breasts, slim hips and a tiny pert little bottom. What followed was a great session with a few breaks in between...I am not getting any younger! Her oral skills are just perfect and things did not last long. Hope I will see her again, I had to book well in advance to see her as I understand this is very part-time for her.
