The Story:

Driving back from work, felt the twitching urge, so made a booking with Apple. I arrived at the premises a little early, but that was no problem to Apple as she let me in.

We know each other well now, as I've seen her several times, but this visit was just too good, and so I have to report!

I stripped off quickly, as did Apple, and we started French kissing passionately! Apple is so good, and it feels so natural!. As we were kissing, I let my hands loose fondling her, one hand to the front rubbing her pussy, the other around the back grabbing her arse and and letting fingers rub the crack of her arse.

I sat on the edge of the bed whilst Apple knelt in front of me with the mirror behind her so I could see her arse whilst she sucked me off. I told her to open her legs wider apart, so that I could see both her holes in the mirror. She started oral on me, with her trademark first lifting the shaft and licking the balls, before proceeding to taking the cock in her mouth. She sucked it well, as I felt the pleasure of her warm soft mouth around my cock. I then picked up the pace by standing up, placing both hands behind her head and face fucking her until she was deepthroating me. I continued this until I was satisfied.

I then told Apple to get into doggy position whilst I knelt on the floor. Now at a perfect height, I started to lick her pussy from behind and deeply rimming her arsehole. She moaned particularly at the rimming, so picked it up more by darting my tongue deep into her pussy and alternatively her arse, which she enjoyed the most, given her sounds of appreciation. I laid her down on the bed and kissed her passionately, and then got in between her legs and licked her pussy, before lifting her

legs up and rimming her some more. I went to kiss her again, whilst my hand wondered to her pussy and arse which both got fingered.

Then on with the condom, I got on top of her to give her a vigorous pounding in her pussy! I was rock hard and this is when the session went from great to greatest! Given that she responded so well from the anal attention I gave her, I pulled my cock out of her pussy and teased around her arsehole. She didn't say anything, but had her eyes close with a look of pleasure. I whispered to her that I was going to put just the head of my cock up her arse. She continued to keep her eyes closed looking in a state of pleasure. I gently nudged the head of my cock into her arse, at which point she made the sound of a shuddering moan! At this point I said to her, "shall I take it out?" She looked at me and grabbed my hips and pulled them towards her. At this point I knew she wanted me in her anus! I continued slowly, building up the pace and going deeper. Her moaning got louder as she started to rub her clit. I continued penetrating her until I had given her arse a thorough pounding.

A condom change, as I got her on all fours and mounted her from behind into her pussy, after a couple of minutes of hard pounding, I pulled out of her pussy, and went back into her arse in doggystyle. I went in hard and fast from the get go, and she was moaning loudly. I could feel the end was coming, so I took off the condom and told her to suck me off. She sucked me long and hard, until I took control and with my hands on her head, face fucked her until I shot a large load into her willing mouth.

I got up and showered, and then made my way out.

Apple, thank you so much for the best session ever, hope to see you again real soon babe, Jay
