The Story:

Had a shower on arrival and just dried off when Pixi entered the room. This was my first time with this lady but she made me feel right at home with some dfk and then a massage and chat. We then progressed to mutual touching and feeling and boy does this girl like the feel of fingers.The main event for me was owo and I must say Pixi excelled in this department ,long and slow alternating with fast and even the use of teeth when I asked for it . she then suggested that I might like some prostate massage ,this was a first for me but Thought why not and I must say it was most enjoyable.In fact the sight of pixi looking up at me while sucking away and massaging my rear entrance is one I shall remember for a long time. I eventually asked pixi to finish me off on her knees which she did and let me cum in her mouth whilst keeping eye contact all the time . This was a punt that really left me weak at the knees ,thank you Pixi.
