### The Premises:

Warren flat.

### The Lady:

Pixie - As always, adorable, eternal.

Kristina - Wow, super fit cracking body, rock solid, upstanding medium breasts, probably a high quality boob job but natural seeming. Very attractive, with a great dark tan just back from vacation.

### The Story:

Totally my fault, down to my inexperience. Lesson learned, stop trying to put girls together if you don't already know they like to work together. Individually they were each great, but between them the chemistry was lacking. They did not know each other, had never worked together, and didn't seem to like each other all that much. Again, my fault. Won't happen again.

Both gave it their all, especially Pixie, who is simply awe inspiring as in any interaction. I know I gush about her, but she is such an inspiring person, completely present at all times, loving what she is doing, making you feel as if you are of great value, probably the only person she has ever cared about or wanted to be with. Any politician, salesperson, or leader of any kind could learn a great deal from the way she deals with other human beings.

Kristina is simply a super hot bodied supremely competent enthusiastic energetic patient positive persistent open minded sex worker. Outstanding value, would love to see her again. They just didn't mesh. My mistake.
