The Premises:

New Siam has been around forever. I used to punt here regularly when there were a couple of cheeky Thai chancers, Nadya and Nanci, who pretended to be sisters running the place in 2010. Not been back for months before today's visit. It's still up a flight of broken wooden steps above a car showroom on Brighton Road. It's still a bit of a tip but the bedroom has been decorated and is clean with OK en-suite.

The Lady:

Apple has been around the block. I fucked her several times in 2014 and 15. I also used to see her strutting round Croydon in high heels and bad lipstick between rides, spending all the money she'd made from me! She's got plenty of front, but is not really a looker. Wonky teeth at the side and a bit of a chubby face. Still she makes an effort. Smallish tits, bit of a belly but a cute arse. She's pocket sized, which can give the impression of cuteness and sexiness. If you're a bigger guy she looks good on the end of your dick.

The Story:

Apple recalled my past visits and treated me like a long lost lover. Nice bit of acting. Last time I saw her she'd gone a bit fluffy - making me get in the bed with her after I'd fucked her. I obliged but didn't feel comfortable with that level of intimacy. She's a brass at the end of the day.

Started with a warm-up massage with plenty of reach-unders, before she administered good OWO, lapping my glans like she was trying to siphon petrol. Licks balls too, which is always a bonus. Took off her knickers while she tried to act coy, flipped her into 69 and went to work on her tidy brown pussy. Nice bum cheeks and labia.

I now remembered that Apple gets properly wet, so went to town, lapping her tiny button clit and easing the tongue inside the vagina, which met with a squeal and what felt like a mouthful of Apple juice. On a whim, I spat on her asshole and started rubbing the saliva around her brown-eye with the tip of my finger. 'No finger inside,' she said. 'But that nice.' So we did each other's arseholes with a bit of spit and finger. No penetration. Very nice.

Fucked her for a bit in missionary, before she suggested in front of the mirror next to the door. There's a massage table in front of it, so I put her over that. My God! I thought she was going to faint. She went mad. Staring at us in the mirror, hissing obscenities and comments about my cock and 'fucking me good'. It was all a bit 'exorcist' at one point - I thought her head was going to spin round. She finally came, with me rubbing her clit while I was up inside her, seven-and-a-half inches deep. Took a while and we were both sweating like navvies by the end.

I finished up by cumming in her face in front of that mirror. When I say, in her face, I mean over her face, her shoulders and even on the mirror.

Nice one Apple, you horny, wonky-toothed little spunk wagon!
