### The Story:

I had advised the parlour that I could be tight for time, and in fact, by the time i had parked up, i was 5 mins late. I had a bit of a job securing a full 30 min session, despite being advised, 'don't worry, you'll be fine'. Amelia walked in and I was suitably impressed. We started caressing and I was having trouble getting hard. I suggested if she sucked it, that would solve the problem. She said she would have to put a condom on me, a bit of a shock, as OWO is advertised. I then asked about CIM, again mentioned on Amelia's 'do' list. She said that she had told management to remove that, as she had tried it and found she didn't like it. Sensing my disappointment, she did start to give me OWO. Whether it was psychological or not, I don't know, but I struggled to get an erection, something that doesn't usually happen to me. I can't fault her looks, or the fact that I really wanted to fuck her. Anyway, I came pretty quick, still while soft, so was pretty pissed off. Amelia said she would once again tell management of her 'likes' change and to remove CIM. I was going to give Amelia a neutral vote, but more than a week on, the CIM is still on her list. I can only assume that she just didn't fancy doing it to me, in which case, why lie? I know these things are at the girls discretion but there was no reason hygienically to turn me down, and I do not like being lied to. So, If u want to visit Amelia, and you require that particular service, I suggest you confirm beforehand, that it is on offer. That was the main reason I chose her, that and the fact she is quite petite, so felt really cheated.
