### The Premises:

As previously described.

### The Lady:

Photos on her profile provide a good impression of what to expect. Very attractive, highlighted blonde, large breasts, average build, 20 something. Twitter photos where she's without the studio makeup is probably a better likeness.

### The Story:

Juliet went straight to the top of the must see list after I saw her unblurred photos on her profile: I found her very attractive and her breasts exactly how I like them. In real life without heavy studio makeup, I still found her very attractive and her breasts perfect.

She greeted me with a peck on the lips and immediately went about covering my neck and torso with kisses spending considerable time licking my nipples. Then she moved onto owo and I found her technique to be excellent. While all this was extremely enjoyable, when I tried to kiss her on the lips I wasn't able to get close to them because she was busy pleasuring another part of my anatomy. I did wonder whether her proactive foreplay activity was a ploy to avoid kissing but went with the flow and progressed to ro and fj.

After embarking on intercourse in the missionary position, I was finally able make contact with her lips and much to my surprise she responded to fk and subsequently even initiating it on a couple of occasions. My arousal levels were already on high alert and this had the effect of bringing them close to meltdown. From that point onwards, fk dominated proceedings apart from a brief interlude when I asked to change position to cowgirl so I could admire her wonderful breasts in action. Then onto doggie at her instigation and then back to missionary for the finish while fk'ing. And a highly satisfying one it was too.

My erection took about 10 minutes to subside afterwards which demonstrated how much she succeeded in turning me on.
