The Premises:

As previously described: a reasonably clean and comfortable flat above a parade of shops close to Wallington railway station. Access is via an alleyway and a flight of stairs.

The Lady:

JoJo is an attractive Chinese girl in her early 20s. She is petite, has long black hair, smallish breasts with huge nipples and a natural pussy. I'd describe her as cute. Unfortunately she speaks very little English.

The Story:

I decided on the spur of the moment to drive to Wallington to visit my usual haunt in this part of London. JoJo let me in when I knocked on the door unannounced. She took me straight to the bedroom. After completing the paperwork we both stripped off and ran our hands over each other. Unfortunately JoJo did break off a few times to check her mobile phone which I find very irritating.

Once she had put the phone to one side we got down to business. Lots of caressing was followed by a covered BJ which was competently delivered. JoJo allowed kissing on her body but only light pecks on her lips. Similarly she only allowed light external stroking of her tight pussy and of her breasts. Sex was in the missionary position followed by a good long hard banging in doggy which got her moaning big-time until I came. After that, she was back on her phone and I was on my way back home. There was no rush or clock-watching.

Whilst it would be churlish not to give JoJo a positive recommendation, her overall performance was not quite as good as that of other girls that I have seen over the years at this establishment. In any case, I expect that she will have moved on before I make my next visit to Wallington.
