The Lady:

Diana is a young Spanish girl with a very curvaceous body and a dirty look. Her tits and ass are very nice. She has beautiful long silky legs that are unbelievably hot backside. She has a pretty face too with some nice wavy brown hair.

The Story:

Diana is filthy and has no inhibitions at all. She is very kinky and started off with some French kissing and she knows how to do it properly - not a hard kisser!

She gave me some deep throat. Watching those sexy lips going up and down my cock was amazing. She worked my end so hard and it felt like a velvet at the back of her throat. I could have done it all night long as Diana is a true pro at this art.

I slipped my penis into her unbelievably tight pussy and she squealed - in fact she made a lot of noise as I banged her hard - as I say no inhibitions. We had intercourse in a number of different positions and I have to say she is particularly good on top as she bumped up and down on me like a rodeo. Spanish girls are very relaxed and just enjoy the pleasure with you. I found Diana to be a great sex companion and she made me cum very hard.
