The Premises:

Discrete location, parking nearby, nice big room and surprisingly cool owing to the 2 electric fans.

The Lady:

Dahlia and Coco are mature women: not skinny waifs but all woman, firm, curvy and very attractive. They are Polish and long-time friends. Both are extroverts and are pretty funny together. In fact they make a great double act: think Morecambe and Wise or Cannon and Ball but with better-looking lingerie.

The Story:

It had been my ambition to see Dahlia and Coco together since 2014 (2015?) when they both worked for a time at Temptations (a former MK agency which became the Hotbox in Northampton). This is the 3rd time that I've seen a duo and to be honest I'm not sure if it really works for me. The problem is that there is too much stimulation going on at once and it's too much to take in. For example, at one point I was sitting between Coco's legs with my back to her and her tongue was in my ear while Dahlia was kneeling over me giving me a blow job. Now that I think back it sounds like it must have been fun but at the time I think my brain was screaming, "Help! Which bit do I focus on now?" Part of my problem is that I'm not very mobile and this prevents me from making the most of the set up but someone with normal mobility would be able to take more advantage and get 'creative'.

However, I would definitely recommend trying a duo at least once and it works really well when you have a couple like Coco and Dahlia who are friends and enjoy each other's company.
