Hideous troll like creature of indeterminate age with hips almost as wide as the doorway.

The Story:

Adult work is not as bad as it is sometimes made out to be. Compared to Viva Street or the ludicrous backpage.com with its endless roster of fake orientals, there is at least a reasonable chance that the girl you see will be the girl in the picture. And indeed some of my best punts have been via AW.

But not this time. The girl in the pictures is a pretty young brunette albeit that her face is not clearly shown (always a warning sign). In reality a grotesque creature with even more saggy bits than me. In desperation I asked if she had any friends working in the flat. She does: her ugly sister (if that is possible). There are many beautiful Romanian working girls in London, but this pair are at the far left end of the bell curve.

I made my excuses and fled having wasted an hour and a half of my life. Avoid unless you like your girls wider than they are high.
