The Story:

I saw a review about Tiffany on here a few days back and also before, so I had my eyes on her for a while now. Finally went ahead and booked her, and I'll start by saying she did not disappoint! I've also used this agency before and find that their fees are some of the best in London, despite only doing outcalls. However, at 120 a pop, its so cheap and I recommended them last time anyway. So Tiffany – this girl has everything you'd want as a man: curvy in all the best places, an amazing big pair of jugs, long blonde hair and a peachy round arse. She came to my flat dressed in a sexy red dress and I was already stunned by how hot she was. We got the small talk over with and she quickly undressed. I told her I was a complete boob man and she immediately took her bra off and let me kiss, lick and caress her nipples, before giving me a fantastic OWO. It was so good that I came in her mouth pretty fast which is rare for me! Maybe these girls just have the skills ive been looking for! We relaxed for a while while I regained myself. I already know girls at this agency offer free massage as part of the price, so asked her for a fully nude one, she happily obliged. I got hard again and she took my dick in her mouth before energetically riding me for a good while until I finished for second time. By this point I was spent, so we just relaxed and chatted. Her English is decent and she's good company. Once again it was easy to arrange, I had a great time and the girl was hot as hell. Would through and through recommend.
