### The Premises:

When i saw her she was in Downham Bromley. She has since moved to Clapham Junction where i have never been due to the distance.

Standard house on main road. Fairly exposed but not much passing footfall

### The Lady:

slim eastern euro (lithuania to be precise) pretty in my opinion. great arse.

### The Story:

I have to start off by saying this is a late review as i have been keeping a few favourites under wraps but have to post for the sake of the game.

This is purely massage and nothing more. Believe me i tried! seen on numerous occasions due to location. her massage was addictive due its sensuality in the body to body (knickers on) and kissing of neck and ear, her firmness in the professional massage, and the eruptions she generated with her touch to finish me off while straddling me.

up there in value for money and performance easily compared to others i've had who's body to body is the last 2 mins before making u cum.
