The Story:

Vanessa is another new escort girl who took my fancy almost straight away when browsing. A young, beautiful, sweet girl with personality to match. She'd make for a fantastic date or GFE, but unfortunately I only got to spend an hour with her. This was still enough to charm me with her looks and personality. Some of these girls don't even bother to converse with you during and after business, but Vanessa really made every effort to make me feel comfortable and make sure I remembered her. A really lovely young lady. Vanessa showed up to mine dressed to impress, sexy matching underwear underneath her clothes and even some stockings and suspenders – wow. She started off by giving me a deep sensual naked massage before moving onto a long, slow, sexy OWO. She let me finish in her mouth and then laid with me chatting for what seemed like forever! She kissed me and I got hard again, then she climbed on top and rode me, switching positions along the way. Her reverse cowgirl was incredible as her body is just perfect for it. This girl is amazing and I would love to see her again, perhaps for a longer GFE next time where I can really get to know her.
