The Premises:

Karina's place is a very close to bond street station about a 5-minute walk her place is very tidy and comfortable the sheets were very clean and she had clean towels, the place had a very nice location easy to get to and she also had a very nice and comfortable bed.

The Lady:

karina is a very nice European girl she has a very nice accent sounds a bit like Spanish and she's got a very nice white and soft skin she also smells very good and is very vivacious she actually takes some time to get to know you better which is something very hard to find as most girls just want to get the job done, the photos are very similar to the real person and she has got a beautiful smile overall a pretty and amazing girl.

The Story:

well I met Karina at her place I got off at bond street station and walked to her apartment it was about a 5 minute walk from the station and pretty easy to get to, when I got there she greeted me in a very nice yellow dress with high hills on she looked absolutely stunning she smelled really good and asked me to go in we sat down and got to know each other better before we actually got any action and I found that especially good as most girls don't take the time to get to know the client better, things from then on just took its course by it self we started it very slowly with some kissing and as things started to heat up things got more intense and she really showed what she was capable of her skills ere truly amazing especially her oral skills she really knows how to please a man and it was one an experience one of a kind for sure, overall it was great and I couden't have asked for a better service.
