The Story:

Honey is a beautiful young woman with these gorgeous legs that go on for miles. I had a great time with her and for what she does, her prices are really good. However, Honey was an hour and a half late for our appointment which is disappointing as she then made me late for a meeting I had. When I brought this up with her she was a bit rude and told me 'so what? It's to be expected' - well actually it's not, most girls I meet aren't late! Anyway, I excused her seemingly bad attitude as a language barrier and I let it slide, making sure to enjoy our time together. Honey's OWO skills are excellent and she made it all the more better by whipping out some flavoured lube which made it sloppier and sexier. It was so good that I finished in her mouth unexpectedly and then got her to do it all over again later on. I could happily take Honey's OWO and nothing else as she's so good at it!
