The Premises:

A convenient town-centre flat but getting in was a real PITA as the main door was allegedly broken and so I had to go through the multi-storey carpark – I came very close to walking! When I arrived at the designated hidden-away door, she still kept me waiting for another five minutes and I again came close to abandoning it as a wind-up as it was now 15 minutes into my slot. I'd texted her 30 minutes in advance, so she knew I was coming, but maybe the previous booking had overrun as he'd also had trouble finding the entrance?

The Lady:

Chanel greeted me in civvies and apologised profusely as it was because she'd had to walk along the shared corridor to let me in. She looked good – slimmer than I was expecting, and not at all slutty.

Once we'd said hello and I'd paid her, she vanished for a while and then came back in black underwear and with an unopened bottle of Jack Daniels! She insisted on putting on heels and kept apologising for being unattractive, but I just wanted to jump on her. Not pretty-pretty, but as hot as hell with lovely athletic legs (said she does nothing now, but used to do gymnastics), a slim body with a tiny bit of a belly (but not a mum-tum!), and nice small soft natural boobs.

The Story:

I'm not sure if Chanel was on uppers of some kind, but she was amazingly excited from the moment I arrived– it was as if I was the hottest customer that she's ever had! She's either a fantastic actress or totally bonkers!

She did make it clear that she didn't like fingers in pussy or bareback, so I guess she has had punters that have tried to push those boundaries.

It was actually a very crazy hour and is now a bit of a blur! Her deep-throat OWO was brilliant, but she could only do it for about five seconds and then had to keep stopping as she was getting tired – I asked her to take it easier, but she didn't really change her technique. Likewise, she was happy to receive up to a point, but then stopped me saying that I was making her cum!

The sex was really quite good, and she took a real pounding, but I was desperate to CIM – I took the condom off and reverted to oral, but she simply would not settle into a rhythm and so I recovered and fucked her to a nice finish.

So far, not so bad, and I booked her a day in advance by text for the following week – I was hoping that she would calm down a little in which case she would be a really good punt. She immediately accepted the booking, but when I tried to confirm in the morning, I got no response. Three hours later I sent another text and she said that she had accepted a 12-hour booking – OK, good business, but she could have let me know earlier? She asked if I wanted to see her colleague, but I was not interested and so booked another girl the following day.

Undeterred, I tried again the following week. All accepted, and I booked it on AW but, after last week, I was a little nervous and so a couple of hours in advance I texted to make sure that she was at the same address - affirmative!

I got to her area and texted her 20 minutes in advance to let her know, and also to ask if she wanted me to come through the car park again - affirmative, and everything seemed still on course.

I arrived at the door exactly on time, texted, and she asked me to wait for a few minutes. After twenty minutes of hanging around in a multi-storey carpark and getting a couple more requests to wait and having tried to call a turned-off phone, I gave up and went home. A totally screwed up evening!

Chanel showed so much promise at our first evening, but I now believe that she has drugs and pimp issues and I have given up on her. A shame as she is attractive, inexpensive, and is on my doorstep – but so are plenty of other escorts and she has proved to be a total wind-up and time-waster!
