The Lady:

Small petit lady in early thirties, with a curvy figure and long blonde hair, which was tied up on the meeting date. Looks as per Website photos. She does have a couple of tattoos on her back which are discretely hidden.

The Story:

As not the first time with Cari greeted with a welcoming kiss and cuddle. After getting a coffee had a long catch conversation of what has happened since previous meeting. Eventually went into bedroom to decide what item of clothing was going to wear, decided, but part was missing! So went for the ivory set of bra, underwear and stockings, left room whilst Cari got changed. When summoned back, she looked fantastic, onto bed and a lot of kissing and touching before removal of underwear etc. Plenty of oral took place in various positions before she sat on top. Finished the evening with a massage and general conversation. Highly recommended.
