The Story:

She does provide an amazing service, I am very experienced with escorts to satisfy me the girl must be not just good she need to be great and Alexa left me one hundred percent satisfied.

Alexa is one gorgeous woman with amazing body and soft skin her sex skills are amazing she doesn't say no for anything she keeps eye contact during oral and she loves to tease.

We had sex in every position possible she is flexible man! She is ok with toys and riming what is important to me she finished me off with wet and deep BJ until exploded on her mouth. After that was dead then she did a little of back massage but she was really pushing me for second round I tried but I am too old for that.

Great experience I am happy with this one.
