### The Premises:

### The Lady:

Slim brunette beauty who is in fact better than her pictures

### The Story:

I arranged to meet oan in Hyde park as it was a lovely warm day and I didn't want to be couped up indoors. We meet at one of the entrances and I recognised her right away, she looked beautiful and was dressed casually in a short summer dress with her lovely tanned legs on show. I wanted to ravage her there and then! She looked better than her pics surprisingly. We strolled through the park chatting for half an hour, I even treated her to some gelato which she enjoyed. We got an uber back to mine for the second half of our meeting and by that time were well acquainted so she didn't mind getting right down to it. We took a quick shower together to cool off which was hot as she gave me an amazing owo in the shower. Luckily I bought some rubbers in with me so we ended up going at it in the shower. Very sexy and steamy, exactly what I needed. I love a girl who isn't afraid to get wet! A great meeting with a gorgeous girl.
