The Premises:

Fairly standard small zone 1 flat, but Kiki is clearly a budding interior designer as it's done up very nicely in an offbeat manner.

The Lady:

The fact that her photos are mainly selfies mean that unlike most what you see is what you get - she's very perky and tight-bodied. Has one of those smiles where her face crinkles up in pleasure which is very distinctive.

The Story:

I don't mean to keep harping on about the photos on the website but really they give a great sense of what she is like; the photos, the kookiness of the room decoration, her somewhat ingenue-type look; it's all part of a young lady with loads of personality, and that's she delivers. There are punts (even good ones) that can seem rehearsed and part of a menu - I think time with Kiki is the opposite of that. She was greatly skilled in everything that we did together (which wasn't everything on the list) but it felt very natural and sweet throughout. If you treat her right, I think she's a genuine gem.
