The Story:

Having heard good things in other reviews I was hopeful for a good GFE with Aisha. She also mentioned deepthroat on her profile, and when we were starting asked me what I was into and I mentioned this. After a massage to start she then gave me an ok uncovered blowjob, but never anything approaching deepthroat. After a while I suggested we have sex. We had missionary where she tried to pull down hard on my back to limit my movement, then when I asked for doggy style instead did a kind of sideways spooning thing. I asked if I could come in her mouth, she brushed off the suggestion then decided we would switch back to missionary, where again she wrapped her arms behind my back and tried to pull me down hard. I came, went to the bathroom, came back to her fully clothed, making it clear that we were finished despite the 10 minutes or so left. I then got dressed while she sat there in pretty much total silence before showing me out. The entire time she made it clear that this was a job, and one she'd prefer not to be doing and wanted over sooner rather than later. There was no deepthroat or even an attempt, there was no kissing at all let alone DFK, there was no CIM. All services at the lady's discretion sure, but christ, I expected her to do some of them. Maybe she was having a bad day, maybe we just didn't click, but this was incredibly disappointing.
