The Story:

Up in Morecambe on a visit and decided to sample what Topaz had to offer

I called and asked who was on, was told Ashley, who I'd never seen before. I liked the description so thought OK.

I arrived and was shown straight up to the room. Did the admin and was told "Ashley will be in in a couple of minutes"

A couple of minutes later in came Ashley. Dressed in black lingerie of bra, knickers, black stockings and suspenders.

Now I do like a lady in flying tackle, they frame the pussy nicely.

I explained that due to medication, I can't achieve an erection these days so would like to eat her pussy and fuck her with a vibrator.

Her eyes lit up when I said that I wanted DATY and she removed her bra & knickers.

For a couple of minutes, I lay there while she fondled my cock before she lay on her back and spread her legs. This gave me a birds eye view of those lips and her clit.

I started by sucking her nipples, first one then the other. "At last a man who knows what he's doing" she said. "I've had SO much bad sex today".

Hopefully, this will change today I said.

I moved down her body and settled on the holy of holies. First licking then sucking her lips into my mouth. "That's nice" she said, "That's VERY nice".

I got her to hold her pussy lips open for me so I could see & suck on her jelly bean.

The vibrator then came into play both on her clit and inside her.

With my finger inside her and the vibrator buzzing on her button she came. I kissed her lips and she shuddered. I kissed them again and she shuddered again.

We still had some time so she was determined to bring me off too. Sadly not to be.

The knock on the door came and my time was up.

I dressed and I kissed her on both sets of lips and both nipples.

Ashley said, "That was very nice indeed, you can definately come here again".

As she saw me out, I said that I'm in Morecambe until Wednesday, and as she works Tuesdays, I will try to see her again for another lick.

"You are very good at it" she said, and so I left.
