The Story:

It was not good at all. She said she was happy to receive oral but she put her legs together and up, so that her clit was unreachable and she used her hands to push my shoulders down if I tried to get to clit area. Impossible to enjoy and she let me have 5 or 6 licks at her and then she wanted doggy style even though I wasn't hard. She had put a condom on my flaccid penis at the very start of the encounter. When I said could she perform oral instead she proceeded instead to very roughly walk me off. No way I could cum like that it was horrific. I told her slowly gently which she did, I just wanted to fun to get out of there. Very disappointing. Gutted because profile sounded great.
