The Lady:

She was clearly different a different person from the person in her photos. She was early to mid 30s (although her pictures said she was 20).

She was somewhat overweight and has no resemblance to her pictures. She definitely wasn't Japanese. She was likely Chinese.

The Story:

Terrible experience.

I agreed with the agency to pay in USD. Specifically \$260 for an hour GFE. They assured me she would provide change for \$300 I had in my wallet.

First she's 30 mins late...and as soon as she has the \$300 in hand....says she doesn't have any change. Then immediately strips and start to give me the worst blowjob ever. I had to ask her to stop.

So we start fucking...and she starts begging for more money...saying I'll enjoy it better if I give her more cash. I called it a night after 10 mins of fucking what essentially was a lazy overweight woman who just wanted to lay there .

Then she says she has to run because her uber is waiting for her. 20 mins after arriving! So that's \$300 down the drain.

Avoid Miko and London Japanese Paradise.

Service Provider's Rebuttal

The agency writes:

Hello,

We are so happy to receive reviews of girl, but please be honestly!!!!

Firstly , she has arrived at 10pm as request!

Secondly, when she arrived , You said have no cash, need go out to get money out. but when you came back (at 10:15pm) you said ATM was out of work , and would like to pay 250 Euro ! not Dollars !!!!

Thirdly , she definitely the same girl. And also you said she was great , would like to meet her next week !

Fourthly, she only 45KG, NOT overweight!!!!!!!!!!!!

Anyway thanks for booking with us.

Hope you are honest in the future in your life. Thanks

Best Regards
