The Lady:

Serenity is an elegant, attractive, charming lady. I booked her for an outcall to my hotel room at the Sheraton Park Lane, she arrived on time, we talked for a few minutes and then we French kissed. We start to explore each other bodies and I was very pleased to feel her large breast is all natural!

The Story:

In bed I started to tease her delightful natural boobs until get them hard, she rubbed her boobs on my body, I got very excited and went down on her, she let me to finger her pussy while I was licking it. I believe I felt her cum... She gave me a pleasing oral without condom, she then placed a condom on and slipped my cock into her pussy. I fucked her missionary style with her legs up in the air. I asked for her to come on top of my in a cowgirl style and what a pleasure! To end up I took her on dog style, I strongly grab her hips and fuck her. She opened her legs while and asked me to go deeper and faster what I did until I blew my load inside her. Great sex experience with a wonderful lady, I will never forget it.

I recommend her.
