### The Premises:

### The Lady:

The escort that I booked from the website was called "Vida". The escort that visited me wore glasses and was not the same person, I think. She was short and quite fat. She was white with brown hair and eyes. She had a pretty face. She said she was 21 years old, which fit her appearance. She appears to have her own agency website [www.dreamsescort.eu](http://www.dreamsescort.eu) I imagine that on both sites all the girls are fictitious, though I haven't found the source for the escort photos.

### The Story:

I was asked to start with by making a bank transfer into a given bank account. I discovered later this was a prepay account . The girl spent most of the time text messaging someone else and a lot trying to persuade to give her money for her family members with health problems.
