The Premises:

Nice tidy flat close to tube station. Having an en suite shower/toilet was useful but it is the luck of the draw whether you get this.

The Lady:

Beautiful is the most appropriate adjective I can think of to describe Sophie and this applies both inside and out. Without doubt in the milf category but younger in appearance and definitely with a far better body than many other ladies in their early forties, she turned out to be far more attractive than I was expecting from her photos.

The Story:

Relatively new to punting, I thoroughly research reviews and employ rudimentary predictive analysis techniques to minimise the risk of disappointment. Having had my appetite whetted recently by several excellent punts as a result of adopting this approach, I was very keen to prove the concept with another lady. Despite Sophie having fewer reviews than other ladies working that day, I got a very strong sense that it will be a punt of the highest magnitude from the ones that she does have. I didn't need to use analytics on this occasion to persuade me to make the booking.

Sophie entered the room dressed in a negligee looking extremely radiant with a huge smile on her face as if delighted to see me. Being a nerd by nature, I'm not normally comfortable in the company of the opposite sex. In fact, my attempts at the dating game have been total disasters but Sophie's natural friendliness put me at ease very quickly. As we chatted, she seemed genuinely interested in me and gave the impression that I was only person that mattered to her at that particular point in time.

Then she smiled warmly at me and gently said that we needed to press on. Dropping to her knees, she put my cock straight into her mouth and gave me an excellent blow job. After several minutes, she planted kisses on my torso as she traced a route up my body stopping at my nipples to give them a good licking in turn before resuming upwards to plant more kisses on the side of my neck. Then she put both her hands behind my neck and pulled me towards her. I couldn't help but look in the mirror at the two of us in this position. She caught me doing so and remarked we looked good

together together. It really pleased me to hear that but being a geek I didn't know how to respond so I sort of grunted in acknowledgement. She then kissed me passionately. It was a deep french kiss.

After a few moments of absolute bliss, Sophie said it was time we got in bed, stripped naked and lay down. I got next to her and she went on to plant more kisses over my body then down my legs. Then she took me in her mouth again for more oral without. Once again I found myself in absolute bliss for several minutes until she stopped and asked what position I wanted her in. After putting on a condom, she climbed on top of me and rode me cowgirl style looking me in the face and leaning forward every now and then to kiss me with passion. It didn't take long for me to shoot my load. With several minutes remaining of my allotted time, we lay there chatting as if we were old friends. Things did turn out to just as I had predicted.

To sum up in a way only a geek can:

beautiful lady + exemplary intimacy + punter made to feel valued = punt of the highest magnitude

Definitely a strong recommendation from me for anyone looking for the same.
