The Lady:

Advertised as a aged 23 and size 12. We all like to downgrade our age a little, its rude not to. The general principal is that this works on the first number only not the second. If she was 23 then I'm still a foetus. More like 35+ The photos are all accurate but notice that in all of them her tummy is completely covered; there is a reason for this. She has stretch marks and massive flab belly being held in by her underwear. more like a 16 than a 12.

Come on Annabellas sort yourself out !!

The Story:

Really was in two minds on leaving positive report due to the blatant inaccuracies in her description.

Fancied a mid-day quickie and Harper was available; looked quite horny on the website. She is quite energetic and she can suck cock like the best. No kissing but banging her from behind really was good.

The stretch marks and flab belly suggest she is way way over 23. Ok not the end of the world, there is no way this girl is 23 but if you shut your eyes and use your imaging you will have a pretty decent screw
