The Premises:

The house is on a new build. I could give her some lee way for the fact that the place is a complete tip but quite honestly I think it's more down to her being a lazy cow. Either way, it was the sort of place where you wipe your feet on the way out.

The Lady:

The lady her self is actually a very attractive blonde with a good figure and a pretty face. She is about 5 feet 5 inches tall and well proportioned. She describes herself as a size ten and I would say this is accurate. She has some small tattoos but they aren't intrusive. She is very clean and presentable (unlike the premises she works in)

The Story:

To be honest, I'm putting this one down to experience and really I should have walked when I saw the state of the house.

Firstly, she kept me chatting downstairs for a very long time. She didn't count this as part of my time, to be fair, in fact she didn't clock watch at all and I was probably in the house almost two hours, but she does insist on a long chat first with new clients and this could be a problem to married guys who can't risk being off the radar too long.

I could hear noises and she told me she had two children but they were with a child minder in a separate bedroom, so I went along with this. They were actually two small boys and the child minder was doing absolutely nothing to control them.

Once we got upstairs, the bedroom itself was scruffy and littered with toys, but once she stripped off it seemed like it was going to be worth it, then the fun started, the boys would open the bedroom door and look in and she would jump off the bed and take them back to the other room and then close the door, only for them to open it again a few minutes later as the child minder, if she actually existed, was doing nothing to control them. I say if she existed as I never saw or heard her.

After this had happened several times at crucial moments I had totally lost my erection and she eventually managed to get me hard again and finished me with a hand job.

To be fair, possibly fairer than she deserves, she does have the makings of a good sex worker if she can sort the kids out and tidy the house. As things stand, I doubt if she ever gets any repeat custom.
