### The Story:

Its been three years since my last visit to Pixi, but it may as well have just been last week .Apart from a change of hair color she was just the same lovely lady that I remembered. I had just finished showering when she entered the room and she helped dry me off and treated me to a kiss and cuddle session on the bed before asking what I would like to do for the next 45mins. We started with me exploring her pussy which was nice and juicy and ripe for fingers ,then onto some owo which Pixi excels at, she also remembered that I had had prostate massage on my last visit ,this was offered and accepted with relish by me so then began 10mins of bliss with me on my back receiving owo with full eye contact and the added bonus of pixis finger massaging my prostate. there could only be one out come to this and all to soon I could hold back no longer and erupted into pixis mouth. We cuddled while I got my breath back and I thought I was at the end of my session, but no. Pixi asked if I would like her to give me a golden shower, not something I've tried before but I thought why not. So into the shower we got and I had a really close up view of her pussy puckering and then there came that warm golden stream of pee all over my chest and washing my cock and balls an out of this world experience. A shower off and a last fondle and kiss completed the session. A truly enjoyable 45mins thank you Pixi you made an old man VERY happy I will be back to see you very soon cos I now want to see what you taste like :-)
