The Lady:

Very attractive, 20 something in age, average height, slim-medium build, very large enhanced breasts, lots of body art, full lips (facial), darker in complexion than apparent in her profile photos, extremely clean and well presented, reportedly EE but in appearance can be easily mistaken for hailing from the near and middle east, good command of English with an accent and extremely polite.

The Story:

It had been a long hectic demanding week and I had only the narrowest of windows of opportunity to slip away from my desk. Luckily Alexa was free.

She came into the room less than a couple of minutes after my arrival, which I much prefer to being left for 5+ minutes like some other ladies. Greeting me warmly and thanking me for seeing her, she made polite chit chat while I undressed. It's always nice to be made to feel appreciated - I'm surprised how few ladies do this.

The action started with fk which morphed to dfk every now and then. Alexa then moved up a gear to give the type of high octane enthusiastic owo commonly seen in professionally made porn videos. This was highly enjoyable and took up a lot of our time together progressing to 69 when she straddled my face which I took to be a cue to start licking. Not only was she extremely clean but she had dabbed perfume between her legs to smell even nicer still and this spurred me on. She gave every indication of really enjoying herself while I worked away with my tongue.

With time running out, I asked for a condom for a couple of minutes of frenetic sex, again like seen on video with her encouraging me using the type of language which could have come from the script. Coming close to the boil, I asked for cim, a service I was aware that Alexa only provides at her discretion and was delighted when she agreed. She resumed her enthusiastic owo until I exploded in her mouth several minutes later with a long lasting and extremely satisfying climax.

Afterwards, I had to wipe my face thoroughly to ensure there was no trace of her bright red lipstick as this would have been hard to explain given that I was only meant to have popped out for a quick bite. There was no evidence of any smears proving that she only uses the quality stuff. As I departed, she said she'd hoped to see me again - a civility I always appreciate.

Alexa's definitely recommended particularly for those seeking a PSE.
