The Premises:

Mavrikia's apartment is in a small street, quite hidden away in Earls Court, not far from the station. Nice enough apartment, right at the top of some quite steep stairs however, (third floor I believe). Showers and everything else were fine. Very comfortable room.

The Lady:

Mavrikia is the girl in the pictures on the website. I would say her age is about right too. She has a nice, womanly body with a nice shape. She has a rather nasty looking scar on her abdomen where she said she had her appendix removed, and another on her thigh that I didn't ask about. Nothing too much to worry about for me, but if you're the type that demands perfection you may not like it. Her English isn't the best, but she was friendly and welcoming enough.

The Story:

The first thing that struck me about Mavrikia was how cautious she was. Now, I don't have a problem with escorts making sure that I'm clean etc. but Mavrikia was close to getting out a microscope to examine my little friend when I went for a shower. Here I was thinking, this is nice, she's going to shower me, but it was really so that she could examine my dick. She didn't say anything, so I assumed that everything was alright. However, when we got back to the bedroom, after all the kissing and caressing and getting her naked etc. she was about to go down on me and then reached for a condom. Now, I assumed that it was OWO, and I knew that this was what she offered, but when I asked her, she pointed at my dick and said she wasn't happy about this. When I looked I couldn't see anything at all, and I was quite shocked. Perhaps a little old shaving rash or something, but nothing that had bothered the two other girls I'd seen the day before on separate bookings!

I was disappointed, but not about to make a fuss. After all, it was up to her at the end of the day, but I have to say that this put a dampener on things from the start. Her technique was quite good though. Not the best, but quite good. Sex was enjoyed in missionary and doggy before I finished. When I took off the condom she rushed to do it for me, but I'd already done it. She then proceeded to mutter in Russian under her breath. I asked if everything was alright and she didn't seem to follow. Then she sat back, opened her legs and started to spray her vagina with some form of what I can only assume was disinfectant or something. Really made me feel like I had some kind of

disease (which I don't by the way!)

I think that Mavrikia is a lovely looking girl and tries hard to be friendly, but she's a tad paranoid and mechanical when it comes to tact!
