### The Premises:

Agency.

### The Lady:

Very good looking petite lady, well kept and with recognisable features, and also very comfortable to look at.

### The Story:

My eyes were fully on her when she arrived, she has a captivating presence, I was overwhelmed, yet, satisfied. I played the gentleman part and waited for her to make the first move. It's okay to be reserved when you meet a stranger the first time after all, going in with 'guns blazing' only works in the movies.

I started complimenting her then I realised she was not really picking up on the puns and idioms I was subtly placing in our conversation. Her english is very good technically, it would pass any test, but there is no other way than the direct approach when you're talking about the specifics here.

I told her what to do and this received a lot of positive reciprocation. Do this. Hold that. Worked like a charm. We worked on my penis until it was hard and tested the springs in the mattress. We put a filled condom in the bag and put a smile on my face.

We still had a little bit of time but I did not want to waste so we got on to the bed adjacent to each other and had a boring chat (as you do) and licked her nipples for a little while while the orange sky poured into our bedroom. Was very chuffed with myself having made a good choice on a bonafide babe.
