### The Premises:

An upper floor flat near Campbell Park, immediately east of Central Milton Keynes theatre district. It was reasonably clean, and like most of MK was relatively modern.

### The Lady:

Celine is a middle-aged pre-op trans woman. At a guess, I'd say she's in her late forties. She is medium height, large boobs, medium build with curves, and a big dick (I'd guess about eight or nine inches long). She resembles her photos, and has a southern accent.

### The Story:

I had seen her ads for a while and wanted to take the plunge. she's pretty "famous" as it were regarding trans escorts in this country, so i was anticipating it for a while.

but i didn't really like it.

i didn't really hit it off - she accused me of being nervous and shy, and even tried to accuse me of autism since i was quiet. i wasn't even nervous, and it wasn't my manner to just blab and chat.

i have some long-standing issues making me get hard (personal to say but i usually say this on visits), and she asked me what i was thinking about. i told her, and then she went on this tirade of how i should confront "psychological violations" and not run away from them. She also went to tell me about forgiveness and that we're all one and connected, and to be good to people who fuck me around.

in the end we spent a few minutes taking about random stuff, and how according to her "people see her for a reason". I told why i saw her (in honesty since she is trans and has a big cock) and she said that's fine, and then once the session ended she saw me out and wished me the best.

I guess she is popular, and it fits since she has a name in the trans UK escort business, and plenty of other guys must like her, but for me she was a bit harsh and almost looking to try and scope me out and bully me.

Good for her though, she has her clientele and success in the industry. But then I guess there is

always one client who looks "a dope" and she fucks around with.  
I've had many other good visits with other TS escorts, whether British like she is or foreign, so I'll move on. It's just not a good fit imho for an escort of her note and position in the industry.  
There probably is one client she has to fuck around with for kicks, or try and influence with her worldview.

But then others, obviously, are different.

Addendum 13-5-20: I have spoken with the provider, and we agreed it was a misunderstanding and there was no ill will.
