The Premises:

Buzzed into a clean and modern apartment block. Very safe and discreet.

The Lady:

Beauty is in the eye, but I can not imagine how it's possible for any woman to be more attractive than Helen. Fiery red hair, light skin, pretty, perfect pert boobs. They're too firm to be real, but they look like they could be. Mid 20s, she is genuinely gorgeous. Switched on too.

She answered the door in a red vest top and matching thong. I've never won the lottery, but what I experienced when that door opened comes as close as it gets I reckon.

The Story:

It was a bit awkward, but that had as much to do with me as Helen. I wasn't assertive and waited for her to take the lead while she waited for me to take the lead. We got there in the end.

From there it remained a slightly clumsy encounter, and that definitely had more to do with me than her. A bit of stroking, oral, and spell of covered cowgirl and I was done.

If you have an ego and want to be made to feel like you're some sort of sex god you need to find yourself a better actress, that's not really Helen's thing. She didn't give the impression she was into it massively, but why should she? In a way I quite liked the honesty in her approach. I have to recommend though, she really is beautiful. If I'd just leered at her for 30 mins I'd have had good value.
