The Premises:

Slightly dingy flat near Holborn. Once inside, there is nothing wrong with it. The lighting was subdued, so a detailed survey not possible, but the bathroom worked.

The Lady:

A Russian nymph. Small but perfectly formed. Very very pretty. Its difficult to say that she matched the website photos because they are so poor.

The Story:

First point - I knew not to rely on anything on the very poor website. Past experience meant that I knew when the website says that the 90 minute session includes a bath ceremony - a warm bath full of rose petals - they don't mean it. The goddess doesn't lead you to it - she tells you where the shower is and leaves it to you.

So there was no disappointment there. First impression was very positive, something of a relief as the photos had not really given any clue about what to expect. Anna was a delight to meet and I went for my lonely shower full of anticipation. Returning to the main room I found Anna naked. She was perfect in every way. Small perky breasts, round and perfectly proportioned bottom, flat tummy....

We came together for a prolonged caress. My hands wandered gently as did hers. And then to the mattress. Face down as usual. Warm oil was spread around and her hands meandered all over. Her attention gradually moved to the interesting parts. Eventually turned over and hands went everywhere. I had paid the extra £40 for the "Yoni Ritual", which meant that her "Yoni" was not off limits.

She was clearly timing everything to perfection. The tide came in and went out several times. This was not a simple hand job. She took immense care to gradually increase and reduce tension, using every part of her body to generate intense excitement. Eventually the inevitable, followed by a gentle cool down and shower. I left precisely on 90 minutes.
