The Premises:

Mistress Luna's facilities are just perfect. Her apartment is just 5 minutes walk from Baker St station, fairly easy to find, she directed me over the phone when I've got near by.

Her apartment is in an upscale building just off Marylebone High street, very nice with elevator. The building is very quiet, discreet and well maintained.

Her apartment is very clean, very nice and has shower facilities spotless by the way.

Her Dungeon is impressive and very well equipped. It is all very tidy and well organised. She also offered me to put air conditioner because it was too hot inside the leather bag.

There were lots of very serious BDSM equipment, I mainly used her new suspension with a huge bench or padded table.

There were some other BDSM items which I want to try next time, such a medical chair and an spanking bench. I saw a medical cabinet which plenty of kinky stuff and lots of dildos and medical tools. Definitely its one of the best dungeons I've ever seen.

The Lady:

Mistress Luna has an amazing personality and attitude, she is lovely in every way woman, very strict and very kind at the same time.

She is petite with body built for sin, her legs are breath taking as well her green eyes and lips, she looks much better in real life than on her pictures.

She speaks very well English with a nice Spanish accent. She explained everything at the begin of the session.

She did communicate very well everything she was doing. She is very skilled in all related to domination, and she didn't rush me at all. She is one of the best dominatrix I've been with.

The Story:

This was my birthday party and I've choose to spend time with Mistress Luna, she made my fantasy reality, and I was blown away by the whole experience.

I've booked two hour session, mainly with lots of leather clothes, high tight boots and leather gloves.

I was put into a leather bag with a very restrictive leather mask as I like sensory deprivation.

I've also tried E stimulation, Mistress Luna recommended a pair of electric elastic bands which she put on my genitals and gave me an amazing penis stimulation, I've also tried electric nipple clamps.

She also encouraged me to do some sounding, then I tried small sound inside my penis and I loved.

To finish the session I've requested the famous Milking machine Venus 2000, as I saw her videos on her website and it was just marvellous the feeling with the machine pumping and milking my cock, and the whole experience was really amazing.
I would like to recommend every man to try the milking venus 2000 , what an amazing intense cock stimulation !
