### The Premises:

Was given easy directions to her residential home just on the outskirts of Poole, very easy to find, parking was easy in a very average ex council housing estate, house was well presented but was a little off putting as full of dogs that were kept in another room downstairs but could be continually heard

### The Lady:

Her descriptions is very accurate and I would say photos are recent, has gorgeous breasts but the rest of her body is that of a women in her late fifties

### The Story:

Was greeted in a very pleasant way and lead upstairs after being offered refreshments, Nicole has a very annoying voice she uses and talks to you like a primary school teacher, likes to dominate and has a well rehearsed routine she goes through that finishes at the right moment, enjoys giving and receiving oral and will dress to please as she did for me, if you enjoy very experienced older women that have been in the business a long time and will do exactly what she says she is one for you.says she offers a GFE but judging from her performance hasn't been any ones girlfriend for a long time and prolly would make a second blind date. Will see again as enjoy the company of a experienced mature women
