The Premises:

Basement flat in Paddington, Clean and tidy with Mirrored wardrobe, very comfortable and good lighting. Fresh towel, with functional shower facilities, nice smelled gel for the shower afterwards ;)

The Lady:

Belle was as OzLondon recommended on a popular forum indeed very Hot. I was prepared to have no sex at all and just chat for an hour if I felt uncomfortable, and she was very accommodating with all my requests and let me dictate the pace of the experience.

The Story:

I was speechless when she opened the door, because her face was 10/10 Gorgeous, exquisite frame, nearly muscular build with a beautiful skin tone. Personality is wonderful, I could chat to her all day long as she is naturally warm and loving.

I had an influx of energy when we first met, my eyes dilated and I was mega excited, very Hot. Far East Asian face, honey blonde hair to the shoulders, amazing enhanced breasts that could easily pass as natural for the inexperienced.

Didn't take her long to disrobe me, then headed for the shower and then the bed.

It's unbelievably strange experience, as all you see is a Hot female all round so naturally kept trying to finger or reach the pussy, but there isn't one lol, obviously; so felt her balls instead and tried my best to get her erect. She is naturally dominant so I felt she was aggressive with my balls at the start

but comms is smooth so all is good. Her lips are naturally full and sublime, really good kisser all round,

and I had to cup her Beautiful face in my hands because walalla appearance to that face.

Great BBBJ just perfect pressure with her hands and takes it full through heavenly ride.

After much caressing, feeling each other, she said "Fuck me baby!". I was massively into her, but she seemed quite

into me too in a bizzar way! Ironically the first time I fucked someone in the ass! She has a mirrored wardrobe so you could see the whole action, seriously wonderful experience. I fucked her brains out, said to cup her breasts and we french kissed passionately for a while simultaneously penetrating her fairly tight ass, perfect arch with it.

The whole thing felt like a marathon and I wasn't thinking at all, just immersed in the action, we certainly had great chemistry there.

I suggested 69, then the pre cum from her did put me off from the position as I never sucked a cock in my life or played the passive in an sexual encounter.

She jacked me off furiously while kissing my face, which is what I wanted, as that made my experience resemble a female escort more, and her face is genuinely the most beautiful I have ever seen, even with the coloured contacts. Everything was great and especially her attitude, like I dictate the pace, the pose, and the whole narrative of my experience, Yes.

Despite this whole action, with my all time erection, I couldn't cum as I already emptied my loads prior to arrival as me meeting her was not fully planned, I just happened to be around her place and decided to meet her.

In hindsight, I am glad I didn't watch her videos on AW as the surprise was worth the suspense. I recommend you try a TS escort at least once in your life %100, and having seen Belle, I recommend her for the Amazing attitude, the charm, Hot face and body, and her experience In the profession.

I still recommend Brazilian Shemales too, which for the life of me I don't understand why there is so many drop dead gorgeous Shemale Brazilians In London - It's ridiculous how Hot they are.

Even if you felt Uncomfortable with the experience when you meet, A drink with her will suffice as she simply warm, intelligent and worth the money, in fact consider it a bargain at this price of £150!
