The Premises:

The location is a bit far for me, just outside Croydon in Sutton, a great house to host parties, I was totally impressed upon arrival, mad house with so much space and many many rooms setup for sex and bondage too.

Ground floor had one room with a Maltese cross facing a bed with a double mirror room so you can watch from the living room full of leather sofas and a big window facing a massive back garden. The other room was a dungeon type, had a cage, a big seat with a leg spreader, and all you need types of whip lashes and such. I am not familiar with the bondage scene and have no experience with it so that's something I am looking to explore. A big enough kitchen and many other rooms, some of them were locked.

Upstairs is where all the action is, a massive room with two double beds more like a room for the hareems where the Sultan spends his time with his 4 wives. Three other spacious rooms well lit with double beds and two big modern showers.

Fresh towels, shamos and all were provided, some snacks too, and refreshments.

This is the first time they used this house for their parties since reopening on the 19th of July, however, the best part is that this house is used for other parties too, BDSM based and it's probably more expensive and a lot less known, so I am seeking more information to get into that one too because there no website, just a Twitter girl to dm.

The Lady:

Unlike the Phoenix party, there is no ratios guarantees, 4 girls were booked in, Melody pleasures(Porn actress and producer): <https://mobile.twitter.com/melodypleasure?lang=en>. A total knockout, a 9, a model, a Goddess, Gorgeous. Melody is the party. I had no idea who was going to be there, I am fresh to swing parties and I was the youngest man in there so I didn't know who she was till Today. A queue of men lined up to fuck her, at all times, there was like 4 men on her each time, inching to get a piece.

Lindsey or her Twitter name Alana <https://mobile.twitter.com/alanabliss2?lang=en> is like 50yo

experienced Porn girl and have been doing parties for like 20 years. She is alright, by the time we got some time together I already emptied my load three times so I had no more energy left in me so we just chatted about Porn and potentially collaborating. 6 for looks.

The other two girls in all honesty and I don't mean to be offensive just honest for the sake of the review, had no interest in whatsoever, too old and too chubby, and a bit of attitude too, quite frankly wouldn't touch them even if they paid me.

The Story:

I had a nightmare the night before thinking of what this party might look like. I was messaging a friend about few days before saying how come this party is so cheap, like am I going to get mugged!? I was anxious all day thinking about it and planning my route to Sutton.

£95 or £80 for 3 hours for members was a no brainier for me, I got to see what this is about. The party was fun, it is 3 hours after all, and everything is relaxed no rush and the guys that come to these parties all bring a vibe to the room, all kinds of ages, nationalities and background, this is what I liked about the party. You could have a drink with a guy, a chat go for a double gang shower chat and get back into the action.

The problem with the price and the choice of girls that were booked is that it Attracts so many people in but only one girl (Melody) that was really worth seeing, I will say it again, Melody is what this party is about. The result is a massive quee for this girl. I am no mug, I had my eyes on her once I walked in, I know a juicy pussy when I see one, and it's hard to take your eyes off her as she is so hot, with a tall shapely figure, beautiful colourful eyes a mix of blue and a Symmetric gorgeous face.

I spent all my time on her fucking her, dining at her temple, feasting on her nipples, massaging her Pusey lips. We were so close to making orgasm when a big lad wrapped her in missionary her blowing a guy off with a Condom, two men going at her nipples, and him fucking her harder and harder, you can tell she was climaxing from all the attention. Her Pussy is Gorgeous pink and many detailed flaps, simply can't be ignored. She is very calm and well mannered too.

I enjoyed missionary, scissors with her, ocarional perfunctory kissing that she didn't really want to allow with me, otherwise everyone would want in, but I had my moments of kissing her, so beautiful this girl. When she stands everyone takes notice. She had her heels on all day, and I mentioned how much of a foot fetish I am but she wouldn't remove them, only at the very end of the party on our own, she showed me her feet and Wow, would have spent hours on that perfection. She told me one of her skills is unbuckling a belt with her feet! - Potential, Potential.

The Drawbacks;

That's the only girl I would have wanted to see, and we had 13 guys or so, who all wanted a piece, as you can see it can be irritating if you didn't get a good piece of her. It's difficult to express an interest in anyone else when someone like her is in the room.

Second draw back: all bj were covered with a condom which is absolute rubbish. Oral with a condom is a disgrace, I will wank myself off, thank you.

Third drawback:With only one girl above 6 in looks and 13 men, that's a terrible ratio.

Good points;

It's only £95 and it's 3 relaxed hours.

MMF value is great because all men were partners in crime, active, and a good mix of ages and nationalities which makes for an interesting parties.

I love watching, so that's fun.

The other great point is that the party is open to couples and single girls too so every day is different. Every day is a different vibe, and it's my first so will see what happens.

Summary: I really hate covered oral, so I am unlikely to return despite the price tag.

I like John the party host, I can tell he is genuine, and really wants to create great parties as he has been doing for 20 years since he used to go himself, but Oral with a condemn and bad ratios is not great value, I much prefer the Phoenix in this case.
