The Story:

A last minute decision to see Paris even though I had already been to another parlour on the other side of the Pennines a couple of hours before and blown my load twice. Sitting in crap traffic on the M62 I decided to call angels to see who was there and when I heard Paris' name I decided to make another diversion as I've seen her before and she is great.

Before going to the room we sat and chatted in the Lounge as I'd been on the road for a long time, I confessed to her that I'd already made a stop that day and it might be an effort to get me going. How wrong I was.

I asked Paris to keep her clothes on whilst we fooled around with me in my boxers She was wearing tiny denim shorts and those tits were bursting through her little green top. She sat on my knee and we kissed and cuddled (not on the lips) and I took every chance to feel her breasts and that amazing arse. She stripped down to a little green thing and I slipped off my boxers to reveal my cock that was already growing. All it took was Paris wiggling that arse on my lap and my cock was hardening. I lay back and she put a rubber on with her mouth and she wanted it with her lips whilst I admired the view in the ceiling mirror. Next I wanted to get my hands on that body again so we sat back up and more of her writhing on me as I sat in the side of the bed. I leaned back and she guided my cock into that tight pussy and slowly took me to the hilt as she placed her hands on my knees and continued to give me a lapdance style fuck. This was incredible as I alternated between feeling her tits from behind, sliding my hands down her thighs and lying back to squeeze those ripe buttocks and stroke down her back. I could almost put my hands all the way around her tiny waist as she then put her hands on the wall meaning she could push back hard which was the most fulfilling feeling as she gyrated her hips and fucked me in time with music. Soon I stood up still inside her and she pressed her chest and the side of her face against the cold white wall and stuck her ass out as I fucked her up against the wall and she moaned with pleasure and I kissed her neck

and the side of her face.

Next ip I lay down and Paris climbed on top again taking me deep and looking me in the eyes she felt my cock pulsate and lay down embracing me and intensifying her screwing as I gazed at that tight arse and athletic slim back in the mirror. I came for the third time that day and Paris squeezed every last drop out of me. "You're properly empty now" she announced and she slipped off me.

Afterwards we saw Chelsea in the lounge (another star) and Paris introduced me to pretty Selena who has just started and was very friendly. I hope Paris is back in Leeds again soon...
