### The Premises:

Still in Chancery Lane but she has moved since I last saw her. Fourth (I think) floor of a block of flats in a busy high street. Buzzed entry, I felt discreet and safe enough. She shares a flat with 1 or 2 other girls. The bedroom was sectioned off from kitchen with a curtain which felt a little odd. Small bathroom. Clean.

### The Lady:

I have seen Veronica countless times. Being a lover of deep throat and anal she is my go-to whenever I am in London. I am determined to review my punts post lockdown, something I am ashamed to say that I didn't do previously. Sorry brothers.

Yes it has been a couple of years since I last saw her but she wasn't quite the same stunner that I remember, it felt as though I was seeing her older sister.

She will have aged a little, as will all have us but gone was the flawless fresh complexion that I fondly remember. In her defence she was wearing light makeup. Her hair that felt natural before was heavily styled with a wet look product and she may have had some filler in her lips. More WG than the girl next door look that I seemingly prefer. She's probably put on a little bit of weight and now looking early thirties. She's still attractive and has a nice body but not the same stunner that I remember looking up at with me a throatful of cock.

I will add that this was a 10am punt without my usual shandy specs.

When I first saw her, maybe about 6 years ago her breasts weren't great so they have stayed under-wraps since. Others have commented that she might have had a boob job and possibly an implant removal since.

### The Story:

I've seen her countless times and have always returned due to knowledge of what to expect - enthusiastic throat and arse fucking. I have to say, possibly slightly taken aback by her appearance, we didn't click on this occasion. It's almost as though she has fallen out of love with being pumeled in the mouth and the bum (weird).

Deep throat was quickly provided but not for the same duration as offered previously. The same for

ball licking. Spitting has been added to her repertoire and is not for me. It felt as though she was trying to get me to pop rather than enjoying the ride.

After munching on her sweet hole for a while which appeared to to be genuinely appreciated we switched to anal.

She asked me which position I wanted. It could well not have been the case but it felt as though I could only have the one. Opting for doggy, the position for champions, she had an annoying tenancy to widen her knees which lowered her ass hole. I'm not big, I wasn't being rough so not quite sure what was going on here. I'd like to think it was for her pleasure but it wasn't for me.

I popped, cleaned up and left.

It's sad to say, but I'm now going to move on to new pastures. Hopefully this one was just a bit flat and that the good reviews will start flooding in for her because when she wants to, she can offer a mind blowing experience.
