### The Premises:

A terraced house in a busy road. There were lots of parked cars outside and it was anything but discreet. This was amplified when I was let in at the same time as another punter was leaving.

### The Lady:

It was the girl profiled, but she was at least a dress size larger.

### The Story:

A very disappointing punt. I was fooled into thinking it might be better because it was at an address I've not been to before. I was wrong. My first disappointment was seeing how much larger Ella was. The second was when she said "don't touch my nipples". The session just didn't go well because I didn't fancy sex and I knew oral would be covered. I just opted for a hand job, but she was poor at that too. She had a bored expression and reminded me a couple of times not to touch near her near her nipples.

I think I will avoid these Romanian places if they are located in similar dwellings.
