The Story:

I had been weighing up a punt for at least a week, it was my first in 2 years and I wasn't going to waste it on a girl who wasn't absolutely what I'm into. Amber's physical appearance was exactly what I fancied.

She opened the door in a lovely dress and was very attractive. She had a lace bodice underneath which looked incredible on her figure and when I asked her to dance for me she was very sexy. Sadly that's where it went down hill.

I told her I loved lingerie and she looked great, she asked if she should take it off and I said no, keep it on. Not 10 seconds later she took it off... OK.

The dance was great and I started to wake up, this is normally where I like to get some OWO. She said she had a sore throat, no kissing or oral of any kind. OK, I'll go down on her... she doesn't do that with clients.

Well at this point I'm more frustrated than aroused but with little else to do, we tried with the hat but I wasn't all that up for it and she is incredibly tight. After a few false starts we got something going and she really did look phenomenal but with so little foreplay and with me rather disappointed that my long awaited punt had missed all my favourite things it just felt like I was banging away aimlessly and after a few minutes and a couple of positions, I asked her to dance some more (which I enjoyed) and finished over her body.

In the 40ish minutes left we talked and she was easy to get on with. She told me she had been asked to leave a previous agency when, having not accepted oral from any guys, she was told it

was industry standard and that clearly escorting wasn't for her. I'm inclined to agree.

Stunningly hot, amazing arse, disappointing service. Sad end to a week.
