The Premises:

A modern private flat near the shopping centre and half a mile from the station. The entrance was very discreet.

The Lady:

A Thai girl as pictured. She was young, attractive and slim. Disappointingly she had boob implants. Her profile stats say 34C, but they seemed bigger than that.

The Story:

It was mostly a good experience, but it could have been better. When I first saw her I thought wow! The session started with Apple giving me an assisted shower. I was in a good mood, but she kept asking me why I was laughing. That was odd because I was just smiling. After drying me off we returned to the bedroom and Apple removed her clothes. On the plus side she had a trimmed bush which made a change. The boobs looked a bit too big for her slim size figure. They weren't rock hard, but they felt too firm. She did have a lovely bum and legs though.

The session started with uncovered oral and that was really good. I wish I'd stuck with that, but after a few seconds Apple stopped and wiped me. This happened about three times and she then put a condom on me and continued. We finished by having sex in doggy position with me standing. Weirdly, I just couldn't get to feel much. It took a lot of effort to cum.

This address has other Thai girls that occasionally work there.
